

Mehdi Safarzade

 Full Stack Web Developer and AI & Data Engineer

contact@mehdisafarzade.dev · Baku

PROFILE

Full-Stack Web Developer and AI Engineer with 4+ years of programming experience and a strong focus on TypeScript-based ecosystems, specializing in Next.js and NestJS. Experienced in designing and shipping production platforms end-to-end — from architecture and API design to database modeling and cloud deployment. Comfortable working independently as the sole developer on a product, as well as collaborating remotely with distributed teams. Currently expanding into Java and backend frameworks such as Spring Boot.

EXPERIENCE

AI and Data EngineerJul 2026 — Present

Prodata MMC

- Developed and maintained an AI chatbot for agricultural question-answering.
- Built a RAG pipeline to ground answers in domain documents and live data.
- Orchestrated multiple specialist AI agents behind a single conversational interface.
- Integrated the system with company data sources and improved its reliability and response accuracy.

Full Stack EngineerSep 2024 — Jul 2026

Upwork

- I Delivered full-stack web development projects for international clients via Upwork, earning a **Top Rated badge** with a **100% Job Success Score**.
- I Built full-stack applications and APIs using Next.js, NestJS, TypeScript, PostgreSQL and MongoDB across multiple client domains.

Lead Full-Stack DeveloperMar 2025 — May 2026

"Heroic.art"

- I Sole developer responsible for the full product lifecycle — architecture, development, deployment and maintenance.
- I Built and maintained the platform's frontend with Next.js and Vue 3, and backend with Node.js and Express.js, using PostgreSQL throughout.
- I Managed AWS infrastructure (S3, EC2) for hosting, storage, and deployment of production services.
- I Worked directly with the client to translate business requirements into technical roadmaps and delivery plans.

Full-Stack DeveloperOct 2024 — Dec 2024

"Mobius"

- I Contributed to an agency's production codebase as part of a remote team while studying full-time.
- I Built and integrated RESTful APIs using Node.js and Express.js, with MongoDB as the primary database.
- I Developed full-stack features across the React frontend and Node.js backend.

Backend Developer

Sep 2021 — Jan 2022

"BakuDevsGroup"

I Developed backend services for an early-stage startup project using Node.js and Express.js.

I Integrated RESTful APIs to enable data exchange between client and server layers.

EDUCATION

B.Sc. Information Technology

2023 — 2027

Azerbaijan State University of Economics (UNEC)

SKILLS

TypeScript

JavaScript

Python

Java

Next.js

React

NestJS

Express.js

Node.js

Spring Boot

Monorepo (Turborepo)

RESTful API Design

Microservices Basics

PostgreSQL

MongoDB

Prisma ORM

AWS (S3, EC2, SES, Lambda, DynamoDB, Amplify)

Docker

Nginx

Linux

Git

CI/CD

RabbitMQ

SCSS/SASS

Tailwind CSS

Zod

React Hook Form

Yarn Berry

Postman

Google ADK

n8n

AI Agent Development

Kubernetes

LANGUAGES

Azerbaijani

Native

English

B2 - Upper Intermediate
